

Measures Speech and communication barriers

Here you will find a list of the measures we want to implement for the System Change Camp 2025. We will endeavour to achieve all of them. But we cannot guarantee it. If you need specific support, please let us know in advance of the camp by registering. Then we can adjust accordingly. Also let us know if you are missing anything that you need to take part in the camp and we will endeavour to provide it. You can find our contact details under "Barrier-free registration".

Before the camp

Low-barrier registration

- Registration of individual support needs
 - via encrypted form:
<https://cryptpad.fr/form/#/2/form/view/aLptCttgQmld4KGfN1G1i9PhDnW+YVKBxsVFq9UuxSU/>
 - by phone: every Tuesday, 14:00-16:00 on +49 163 9799864
 - by e-mail: campfueralle@system-change-camp.org
- Possibility to specify needs such as medication refrigeration, rest requirements, stimulus reduction, physical rest or special nutrition
- Preferred places at the bed exchange

Information

- Information about the site on our website (e.g. site plan, location of quiet zones, shaded areas)
- Information about the programme on our website (incl. meal and break times)
- Support with packing through checklists
- List of barriers on our website

Arrival and departure and orientation

- Support person for arrival and departure
- Contact persons from the inclusion team on site

At the camp

Communication

- Permanent availability of the inclusion team during the day and in the evening for inquiries, support and arranging assistance
- Communication assistance can be organized upon registration
- METACOM materials for communication support can be borrowed
- Writing materials available in all program tents
- Sunflower buttons as a voluntary identification sign for invisible disabilities

- Buttons for "I am being addressed" and "I do not want to be addressed"
- Awareness team available in case of excessive demands, misunderstandings or stress-related communication withdrawal

Programme design

- Well-structured program that can be downloaded and printed as a PDF, accessed via app and displayed on site,
- Opportunity to participate without pressure to perform or communicate
- Offers where you can listen without speaking
- Sensitization of speakers to speak slowly and clearly. We encourage the use of methods with a variety of expressive possibilities (e.g. drawing, showing, writing). Spoken content should be supported by visual elements.

After the camp

Feedback

- Opportunities for feedback via email or telephone so that we can improve our programme in subsequent years

⚠ Remaining barriers

- No complete interpretation into easy language, sign language or foreign languages
- Not all helpers are trained in barrier-free communication
- Much of the information is in written form
- Loudness or stimuli at the camp can make non-verbal communication difficult
- Spontaneous assistance not always immediately available
