

Measures for blindness and visual impairment

Here you will find a list of the measures we want to implement for blind and visually impaired people. We endeavour to implement all of them. But we cannot guarantee it. If you need specific support, please let us know in advance of the camp by registering. Then we can adjust accordingly. Also let us know if you are missing anything that you need to take part in the camp and we will endeavour to provide it. You can find our contact details under "Barrier-free registration".

Before the camp

Low-barrier registration

- Registration of individual support needs
 - by encrypted form:
<https://cryptpad.fr/form/#/2/form/view/aLptCttgQmld4KGfN1G1i9PhDnW+YVKBxsVFq9UuxSU/>
 - by phone: every Tuesday, 14:00-16:00 on +49 163 9799864
 - by e-mail: campfueralle@system-change-camp.org

Information

- Information about the site on our website (e.g. site plan, location of quiet zones, shaded areas)
- Information about the programme before the camp starts on our website (incl. meal and break times)
- Support with packing through checklists
- List of barriers on our website
- website is screen reader compatible

Arrival & departure and orientation

- Support person on arrival and departure
- Contact persons from the inclusion team on site
- Possibility of camp guidance by assistants

At the camp

Infrastructure

- High-contrast markings of steps and obstacles
- Tent labelling with pictograms
- Camp signage with large lettering and high contrast
- Water points and dog waste bags for guide dogs
- Preferential places at the bed exchange for overnight stays in flats in Frankfurt

Mobility

- Shuttle/accompaniment to the camp
- Provision of assistance in everyday camp life (e.g. accompanying people between camp locations and to help with orientation)

Programme design

- Provision of materials in accessible formats (large print, digital)
- Sensitisation of speakers to the description of visual presentation elements
- Possibility to use assistive technologies in all workshops
- Programme and event descriptions as pdf screen reader compatible
- Programme changes will be communicated via Telegram channel
- reserved seats in the front row

Communication

- All camp information in digital text form screen reader compatible
- Descriptions of the surrounding area
- Accessible camp guide in various formats (audio, large print, digital)
- Training of helpers in dealing with visually impaired and blind participants
- Accessibility via public WG telephone

After the camp

Feedback

- Opportunities for feedback via email or telephone so that we can improve our offer in subsequent years

Remaining barriers

- Difficult to recognise obstacles such as tent ropes or pegs
- No tactile guidance systems at the camp
- Little to no information in Braille
- Getting there: Long journey (approx. 1km) from a low-barrier public transport stop to the camp
